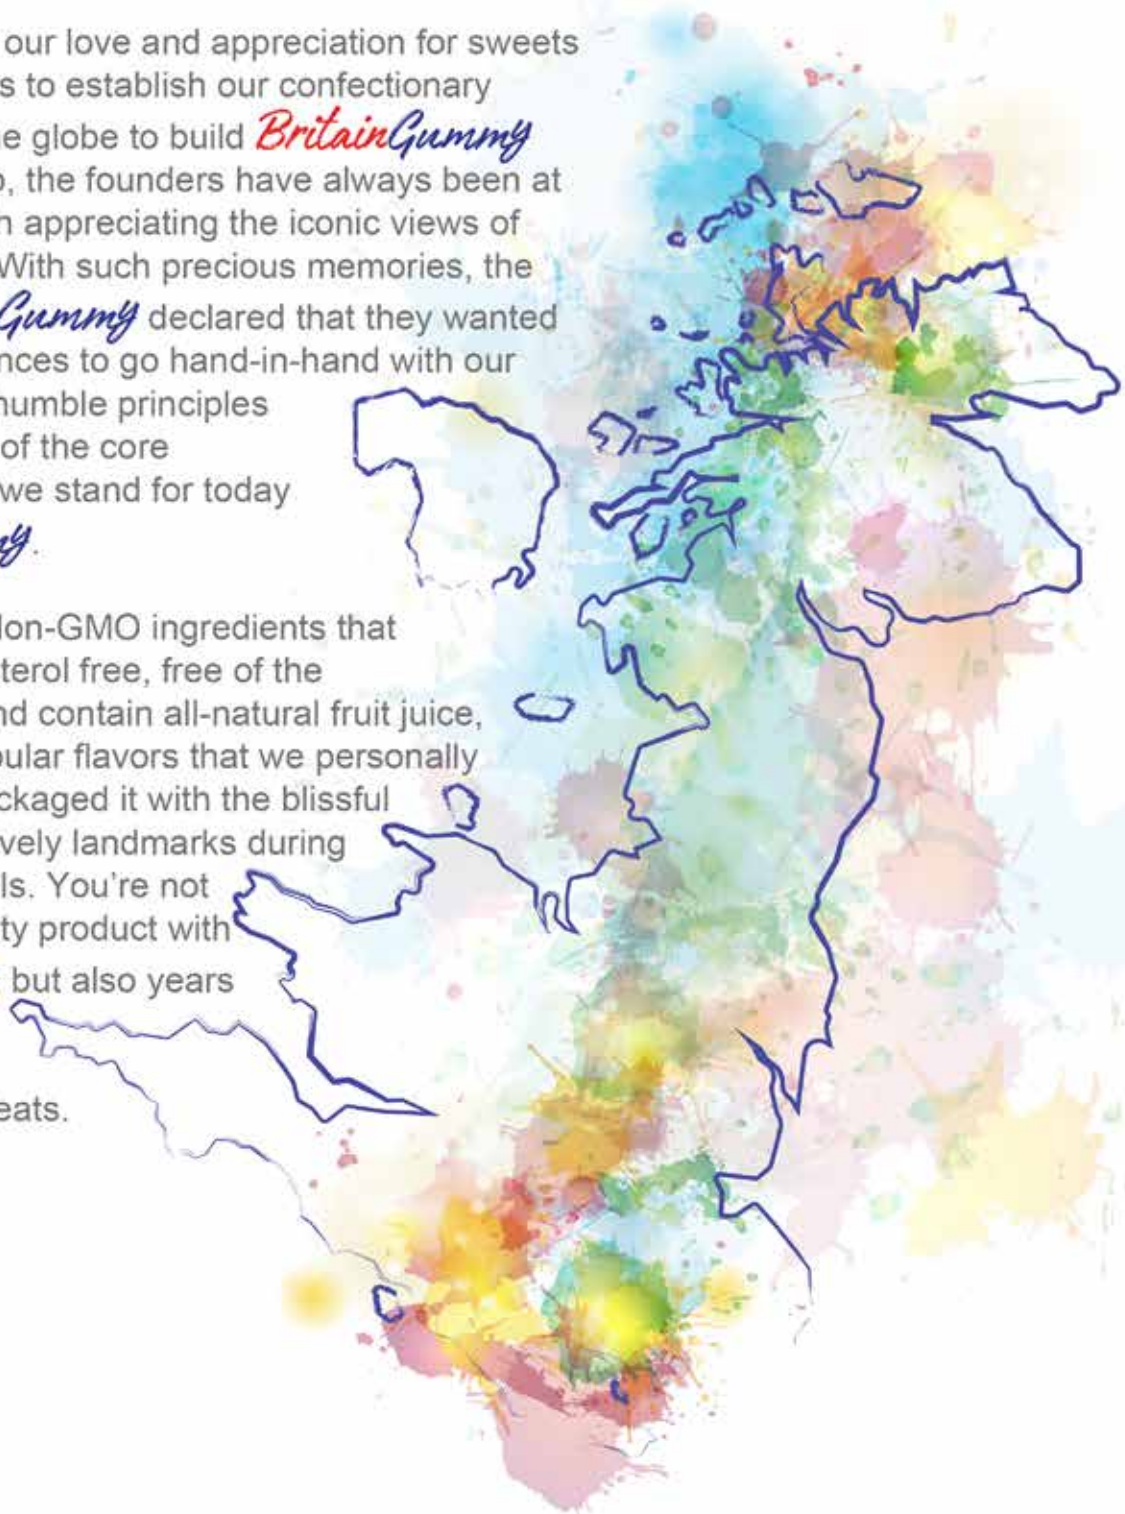
Brand Story

Since 1982, it was our love and appreciation for sweets that have guided us to establish our confectionary brand. Traveling the globe to build *BritainGummy* from the ground up, the founders have always been at their happiest when appreciating the iconic views of London, England. With such precious memories, the brains of *Britain Gummy* declared that they wanted their joyful experiences to go hand-in-hand with our tasty treats. Their humble principles have become part of the core fundamentals that we stand for today at *Britain Gummy*.



Made with 100% Non-GMO ingredients that are fat free, cholesterol free, free of the top 10 allergens and contain all-natural fruit juice, we have taken popular flavors that we personally love and neatly packaged it with the blissful memories of the lovely landmarks during the founder's travels. You're not only enjoying a tasty product with *Britain Gummy*, but also years of delightful experiences all in sweet bite-sized treats.
